ABOUT ME

Skilled Full-Stack Developer experienced in building responsive, high-performance web applications using React, JavaScript, Node.js, Express.js, PHP, and modern UI technologies. Proficient in MongoDB, MySQL, and SQLite, with a strong focus on scalable architecture, optimized performance, clean design, and seamless user experiences.

PROFESSIONAL EXPERIENCE

Freelance Web Developer & Designer | Self-Employed | INSD

Key Project: Responsive Web Architecture & Branding | Feb 2026 – Present

Live Preview: <https://insd-project.vercel.app/> | onsite Live: <https://insd.edu.in/>

- Engineered and deployed high-performance web applications using modern JavaScript and libraries including GSAP, Lenis Scroll, Three.js to create immersive, interactive user experiences.
- Architected robust front-end interfaces, managing hosting and seamless continuous via integration Vercel.
- Collaborated closely with corporate stakeholders to draft Memorandums of (MoUs), and Understanding gather technical requirements, translate brand identities into polished digital solutions.
- Optimised website performance and asset loading, achieving faster render times and superior cross-device responsiveness.

PROJECTS

Sneaker Website

Github: <https://github.com/Rexbiswas/sneakerhead> | Live: <https://sneakerhead-khaki.vercel.app/>

Built a modern e-commerce platform using React, APIs, Framer Motion, Lenis, and GSAP for smooth animations and fluid scrolling. Applied basic WebGL and Three.js concepts to create interactive 3D elements, enhancing visual engagement and overall user experience.

Cookies Website

Github: <https://github.com/Rexbiswas/coralcookies> | Live: <https://coralcookies.vercel.app/>

Engineered a high-performance React webapp integrating Matter.js for 2D rigid-body physics, utilizing GSAP for complex visual timelines and Lenis for smooth-scroll synchronization to deliver a seamless, interactive user experience.

E-Books Library

Github: <https://github.com/Rexbiswas/lumora-books-library> | Live: <https://github.com/Rexbiswas/lumora-books-library>

Developed an immersive animated eBook library using Next.js, React, Tailwind CSS, GSAP, Framer Motion, and Three.js with interactive 3D experiences and smooth scrolling. Integrated MongoDB/Mongoose with Google Books and Open Library APIs for dynamic book discovery and data management.

TECHNICAL SKILLS

- Programming Languages: JavaScript, Python, R Programming, Core C++, HTML5, CSS3, C Programming
- Frontend Styling & UI Development: CSS, Responsive Design, Tailwind CSS, Bootstrap, Daisy UI
- JavaScript Libraries & Frameworks: React.js, GSAP, Lenis, Locomotive, Next.js, Howler.js, Lynx.js
- Backend, Server Technologies & API: Node.js, PHP, Express.js, Angular.js
- Development Tools / IDEs: Visual Studio Code, Sublime Text, Atom, PyCharm, Cursor AI
- Database Technologies: Relational databases (MySQL), NoSQL databases (MongoDB, SQLite)

EDUCATION

Indira Gandhi National Open University (IGNOU) | 2023-2025

Economics Honours

Graduate in Economics (Hons) with a strong foundation in economic principles, data analysis, and research, capable of applying analytical thinking to real-world financial and market challenges.

CBSE | 2021-2022

Higher Secondary (12th)

Completed Higher Secondary (12th) under the CBSE board with a strong academic foundation and developed analytical, communication, and problem-solving skills.

CBSE | 2018-2021

Secondary (10th)

Completed Secondary (10th) under the CBSE board, building a solid foundation in core subjects and essential academic skills.

PERSONAL INFORMATION

Date of Birth: 22-11-2003 | Nationality: Indian | Marital Status: Bachelor
Hobbies: Cricket and Listening to music
